

m-CARDS™ PocketECG - Comfortable, Accurate All-In-One ECG Monitoring

**Your patients will
love our newest all-in-one Holter.**

m-Health Solutions PocketECG is portable, lightweight and easy to use, making patient compliance more manageable. Three leads easily connect from the device to your patient's chest to reliably provide a constant stream of ECG data for either 14 or 28 days. Can see near-real time critical events to allow for faster treatment.
